## BC Parks Recreation Expansion: Proposal to build a Campground at Christina Lake Park

BC Parks is proposing changes to Christina Lake Provincial Park. We are considering converting two of the four existing parking lots into a new 25-site campground. The 350 metres of sandy beach would remain fully available for day use as it is now, with the remaining two parking lots left to ensure space for day use.

Please submit your feedback via the survey below. We value your input and thank you for taking the time to participate.

The feedback we receive will be used to inform our plans going forward, which will be communicated via a project update on this webpage this fall.
